S I R :

In response to the Office Action dated April 4, 2001, please amend the above-identified application as follows:

IN THE CLAIMS:

Please replace claims 1 and 23 with the following amended claims:

1. (Amended) A digital camera comprising:
- an addressable memory which is separatable from said camera;
- a picture capturing unit for capturing picture information corresponding to an image and for storing said picture information in said memory; and
- a control information processor for storing in said memory a processing method for indicating how said picture information is to be processed, said processing method selected after said picture information is captured, said processing method remaining in said memory after said memory is separated from said camera .
